### About

- work experience in many aspects of information and its management
- commitment to a church that can reflect constructively on its past and find ways to continue serving its Lord and its community
- a walker who values an upbringing in rural Western Australia and enjoys living in the City of Melbourne, but thinks all is not well in Australia and the world and now is not the time for despair but rather the time to learn from our mistakes and envision a future where the church is a questioning participant rather than a safe haven

### At this General Synod I hope to

- contribute to helping the church find its place in our wider society
- renew and make new acquaintances across the church both geographically and ecclesially
- apply experience and lateral thinking skills to find ways in which we can work productively together
- find out how to make the Directory a better tool to assist our joint mission
